

TOPPING PUMP

**One size fits all. Ease of use.
Low cost of ownership.**

This versatile pump dispenses a wide range of food products: thin syrups and hot sauces, thick ketchup and mayonnaise and products with particulates like tartar sauce and fruit purees. The flexible pick up tube allows you to use the same pump in 7, 7 ½ and 10 inch fountain jars. Accurate portion control delivers consistent flavor profiles and reduced waste from over-portioning. Transparent body makes for quick product identification. It's easy to break down, clean and reassemble. Available to dispense from a variety of open vessels or pouches for a sealed system that minimizes cleanup time.

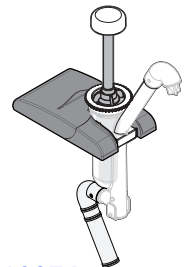

Features & Benefits

- NSF Listed
- Few components - easy to disassemble and clean
- No wear parts that require regular replacement
- All components are dishwasher safe
- Portion settings available from 1/4—3/4 fl oz
- Consistent portion control
- Transparent nozzles and optional color-coded knobs for easy product identification

10973
for 16mm pouch

10974
for fountain jar

Topping Pumps are designed for use with 48 or 64 oz pouches with 16mm fittings or 7–10" fountain jars.

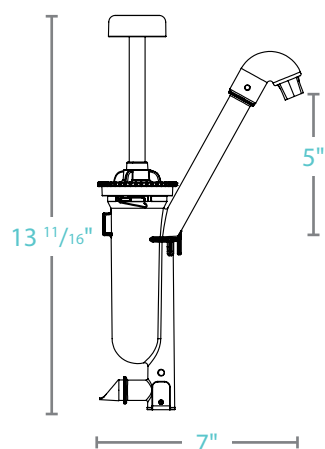

(Jars sold separately.)

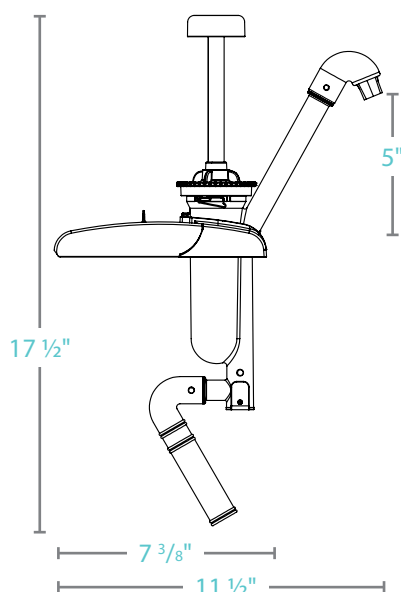

TOPPING PUMP

Specifications

10973 (for 16mm pouch)

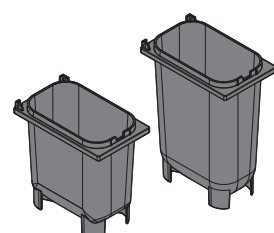

10974 (for fountain jar)

Part #	Description	Model	Weight	Dimensions (w x d x h)
10973	Topping Pump, 16mm	06	0.9 lbs	2 3/4 x 7 x 13 11/16
10974	Topping Pump, fountain jar	06	1.1 lbs	4 1/2 x 11 1/2 x 17 1/2

Accessories

Fountain jars work seamlessly with the topping pump. The sloped interior reduces waste up to 50% compared to other jars. These stable, sturdy units provide a standalone solution for countertops- no need for a separate containment system.
