Product Identification

LIMITED WARRANTY

This product is warranted to be free from defects in material and/or workmanship for a period of two (2) years from date of original installation, not to exceed 30 months from date of shipment from our factory. Any part or component which proves to be faulty in material and/or workmanship within the warranty period will be replaced or repaired (at the option of Prince Castle, Inc.) without cost to the customer for parts or labor.

This warranty is subject to the following exceptions/conditions:
• Use of any non-genuine Prince Castle parts voids this warranty and all work must be performed by an authorized Prince Castle Service Agent.

• All labor shall be performed during regular work hours. Overtime premium will not be covered.

• Travel charges are limited to 200 kilometers (100 miles) round trip, 2 hours travel time, one trip per repair.

• Damage caused by carelessness, neglect, and/or abuse (e.g., using wrong current, dropping, tampering with or altering electrical components, or improper cleaning) is not covered.

• Equipment damaged in shipment, by fire, flood or an act of God is not covered.

• Damage to non-stick coated surfaces is not covered by this warranty.

IRT-SB-NA-3PS

Electrical Specifications

208V 60Hz 4500W 1PH

Disconnect Power

 **WARNING**

Failure to turn off the unit before servicing could result in severe bodily injury or death. Switch the On/Off switch to the Off position before servicing.

Important

Prince Castle reserves the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions, or replacements for previously purchased equipment.

Safe Service Practices

 **WARNING**

Indicates information important to the proper operation of the unit. Failure to observe may result in damage to the equipment and/or severe bodily injury or death.

 **CAUTION**

Indicates information important to the operation of the unit. Failure to observe may result in damage to the equipment.

GENERAL

This appliance is designed for toasting bread products in a commercial McDonalds kitchen. The dimensions of the bread products as defined by McDonalds.

 **CAUTION**

Do not hose down or use a water jet on the unit. Keep the unit away from running water. Disconnect power cord before performing any cleaning or maintenance.

 **CAUTION**

Equipment must be elevated from the floor at all times during cleaning and operation.

Serial Number Matrix

The manufacture date is encoded in the unit's serial number. The service bench installation date (used to determine warranty coverage) is considered to be the end of the following month. For example:

Serial Number: FJ0000458
 Manufacture Date: June 2014
 Service Bench Installation Date: July 31, 2014

Horizontal Infrared Toaster

IRT-SB-NA-1PS

IRT-SB-NA-3PS

Installation

1 Unpack and Inspect. Remove the unit from the carton and inspect for signs of damage. If there is damage to the unit:

- Notify the carrier within 24 hours of delivery
- Save carton and packaging materials for inspection purposes.
- Contact your local dealer.

2 Verify parts. Verify that all parts have been received. When replacing parts use Prince Castle parts only.

- Horizontal Infrared Toaster
- Out-Feed Tray
- In Feed Rack
- Crumb Tray (Already installed)

3 Place toaster on a sturdy surface. Remove blue and/or white protective covering prior to powering on.

CAUTION

Two person lift, unit weight is more than 50 lbs.

4 Follow daily PM procedures.

5 Install In-Feed Rack . Slide the in-feed rack onto 1 hook on each side. Ensure the rack is secure before operating the unit.

Install Out-Feed Tray. Insert the Out-Feed Tray onto one hook on each side. Ensure the rack is secure before operating the unit.

6 Place the IRT toaster directly above the CBT toaster (Please reference document number 353-564 for the CBT toaster install procedure). Insure the unit is sitting flush on top of the CBT toaster, with no overhang.

CAUTION

Appliance for installation only on non-combustible counter. Clearance to be a minimum of 12 inches from side to wall and minimum 20 inches from back to wall.

Two person lift, unit weight is more than 50 lbs.

7 Plug unit in. Plug unit into a grounded receptacle with a matching plug configuration.

WARNING

All electrical connections must be in accordance with local electrical codes and any other applicable codes. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid hazards.

Horizontal Infrared Toaster

IRT-SB-NA-1PS

IRT-SB-NA-3PS

Operation

1 Turn unit ON. Turn the On/Off switch located on back of toaster to ON. The Prince Castle screen will appear in the display for three seconds. (Ensure the conveyor is fully closed)

2 Wait through Warm-Up. During Warm-Up, the LCD display will read "WARMING UP". Warm-Up time, is about 15-20 minutes. Bagel Mode will come up by default

3 Select product to be toasted by touching the button until indicator light illuminates. Note: Conveyor belt will change speed based on product selected.

Muffin = White LED
Bagel = Blue LED

4  **WARNING**

BURN/ELECTRICAL SHOCK HAZARD! Toaster can be HOT and can cause severe burns or severe shock. Keep hands and objects out of the toaster unit! Failure to exercise caution may result in serious injury! Turn the unit off, and let it cool down completely before touching or working on internal apparatus.

Watch for Product. When ready temperature is reached, the LCD display will read "BAGEL" or "MUFFIN" depending on the mode.

5 Feeding in Muffins and Bagels. Feed product cut side up in the in feed wire racks shown. Rack will allow 6 muffin or 5 bagels across.

6 Adjusting Toast. For lighter toast, press and hold, ~5 seconds, directional key (left) until indicator move towards lighter rectangle. For darker toast, repeat with the direction key (right) that points toward the blackened rectangle.

Horizontal Infrared Toaster
