SERVICE BULLETIN

Subject: MAR1400 and MAR2000 Gear Reducers and V Belts

Gear reducer. The gear reducer for the MAR units has been changed. The new part number is M620377-04 and is completely interchangeable with the prior gear reducer. The new gear reducer's use began with units mfg. in November 2002. The old gear reducer is marked VF 30/63. The new gear reducer is marked VF/W30/63.

Drive motor mounting plate. The drive motor mounting plate has changed. The new part number is M784350-06. It is completely interchangeable with the prior mounting plate.

Drive belt. The V belt used on the MAR units with the new gear reducer is different than the one used with the prior gear reducer. The prior belt is part number M650422-22 (Z33). The drive belt to use with the new gear reducer is M650422-18 (Z35).

Drive pulleys. The MAR drive pulleys are now anodized on the outside. There is no part number change.

SERVICE BULLETIN

Subject: New Pulleys for MAR1400 and MAR2000

The motor and gear reducer pulleys for these two models has changed. The V belt between them has also changed. The new pulleys are cast iron, the prior ones were aluminum. The prior V belt (M650422-22 (Z33) is still available as are the pulleys.

The pulleys must be used with the correct V belt and cannot be mixed within a unit.

Fiber Key Update

There are two fiber keys that connect the gear reducer drive shaft to the refrigerated drum. These are item 22 of page 5 in the parts list. The update is that MAR1400 and MAR2000 use different keys:

- MAR1400 key part number M741092-04
- MAR2000 key part number M741092-03
